Work carried out up to the last progress report:

From 2024/06/10 to 2024/07/14, our team, Tech Titans, reached key milestones in the development of our project, "Intelligent Indoor/Outdoor Surveillance Camera with AI Detection and Programmable Relay Control."

- We prepared a comprehensive project proposal.
- Developed a detailed Software Requirements Specification (SRS) document.
- Successfully procured the necessary hardware components for project implementation.

Work carried out during the reporting period:	
Registration No.	Task completed
ITT/2020/021	Detailed the methodology (Project Proposal) Developed use case scenarios for the project (SRS)
ITT/2020/078	Defined aim and objectives (Project Proposal) Defined functional requirements of the project (SRS)
ITT/2020/128	Developed project work plan, Conclusion (Project Proposal) Created activity diagrams for the project (SRS)
ITT/2020/091	Prepared project introduction (Project Proposal) Designed the data architecture for the project (SRS)
ITT/2020/121	Conducted a preliminary literature review (Project Proposal) Developed the hardware design for the project (SRS)
ITT/2020/072	Created problem statement (Project Proposal) Specified non-functional requirements (SRS)
ITT/2020/097	Outlined the scope of the project (Project Proposal) Prepared SRS introduction (SRS)

Feedback to the team by the supervisor (changes, suggestions, recommendations):
<ul style="list-style-type: none"> Project Proposal Document was received on 11.06.2024 and some modifications on the Aim and Objectives and Methodology were suggested. SRS Document was received on 10.07.2024 and some modifications on the use case and activity diagrams were suggested.

Supervisor's evaluation on progress:

Poor

Fair

Good

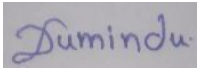

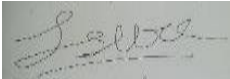

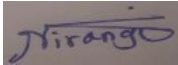

Excellent

Expected work to be carried out until next progress report:

Until the next report, we intend to keep doing the following,

- Develop UI/UX design of the system.
- Create SDS document.
- App development.
